About Me

AI/ML/DL researcher and engineering leader with **15+ years** of experience across **Pakistan, China, and the Philippines**. Distinguished Engineer and Project Manager at STH Research Center for Advanced Technologies (STHRCAT). Specialist in Large Language Models, generative AI, LLMOps, and integrating AI advancements into the software engineering lifecycle.

Current research focus: systematic mapping of AI4SE across the SDLC, AI-augmented software development, and autonomous AI-research systems to enhance development productivity, quality, and scalability. Track record of architecting production systems at scale, leading cross-functional engineering teams from ideation to deployment, and delivering enterprise-grade IT, cloud, and custom software solutions. Certified in AI, cloud computing, and project management, with a strong commitment to mentoring the next generation of tech professionals.

Areas of expertise:

Artificial Intelligence · Machine Learning · Deep Learning · Large Language Models · Software Engineering · Cloud Architecture · Project Management
Technical Leadership · Research & Development.

Experience

Project Manager

STH Research Center for Advance Technologies | Remote

Jan 2021 - Present (5+ years)

- ✔ Initiated and led the development of innovative AI-powered software products from concept to launch
- ✔ Managed cross-functional teams, defining project scope, schedules, and technical milestones for successful delivery
- ✔ Oversaw delivery of advanced IT services for local and international clients, maintaining high standards and agile project execution
- ✔ Designed technical architecture, selected technology stacks, and supervised codebase integrity throughout all phases
- ✔ Established best practices for software/web/Android/iOS/macOS/E-commerce development, delivering robust and scalable solutions
- ✔ Provided training and mentorship to development teams, fostering skills in modern technologies and methodologies
- ✔ Conducted technical research, performance audits, and competitive benchmarking to steer strategic direction

Senior Software Engineering Manager

Hampson | China

2019 - 2021 (3 years)

- ✔ Oversaw engineering teams in designing, developing, and delivering complex software solutions aligned with business objectives
- ✔ Defined and implemented best practices for software architecture, quality assurance, and process improvement
- ✔ Mentored engineering leads and senior developers, cultivating technical excellence and leadership skills across the team
- ✔ Led hiring, onboarding, and career development initiatives to build high-performing, diverse teams
- ✔ Managed agile sprint planning, tracked project progress, and removed obstacles to ensure timely delivery of key milestones
- ✔ Liaised effectively with stakeholders, executive leadership, and cross-functional teams to communicate project vision, status, and risks
- ✔ Drove innovation by evaluating emerging technologies and fostering a culture of continuous improvement
- ✔ Optimized workflows, resource allocation, and team structures for maximum productivity and efficiency
- ✔ Built and maintained relationships with external partners, vendors, and clients to support organizational goals
- ✔ Developed and tracked key performance indicators, regularly documented and reported on service quality levels

Senior Full Stack Software Engineer

GPC | China

2017 - 2018 (1 year)

- ✔ Led the design, development, and deployment of scalable web applications using modern frameworks and technologies
- ✔ Architected software solutions, defined technical standards, and ensured code quality through code reviews and best practices
- ✔ Collaborated closely with cross-functional teams including product managers, designers, and QA engineers to deliver high-impact features
- ✔ Mentored junior engineers, providing guidance on architecture, coding standards, and professional growth
- ✔ Optimized application performance and reliability, resolving complex technical challenges efficiently
- ✔ Planned and executed software releases, managed CI/CD pipelines, and maintained comprehensive documentation
- ✔ Drove agile sprints, contributed to project planning, and actively participated in technical roadmap discussions
- ✔ Integrated third-party APIs and services, ensuring robust system interoperability and security compliance
- ✔ Monitored industry trends, researched new technologies, and recommended innovations to improve team productivity
- ✔ Communicated progress, risks, and solutions effectively with stakeholders and executive leadership

Network Engineer
Southwestern University | Philippines
2015 - 2016 (1 year)

- ✔ Maintained computer networks, including mainframes, VPNs, routers, and hardware.
- ✔ Installed and configured network equipment for efficient operation.
- ✔ Implemented firewalls, updated virus protection software, and data security systems.
- ✔ Monitored and optimized computer systems for improved network performance.
- ✔ Troubleshoot, resolved, and communicated networking issues to staff and management.
- ✔ Developed disaster recovery procedures.
- ✔ Stayed updated on networking and security best practices to provide effective solutions.

Full Stack Engineer
Freelance | Remote

2010 - 2016 (6 year)

- ✔ Designed, developed, and deployed end-to-end web applications, working across both front-end and back-end technologies
- ✔ Built responsive user interfaces using modern frameworks such as React, Next.js, or Angular
- ✔ Developed robust server-side APIs and services using Node.js, Express, or similar technologies
- ✔ Integrated databases (SQL and NoSQL), optimized queries, and managed data modeling and migrations
- ✔ Collaborated with cross-functional teams to define specifications, establish project goals, and deliver features on time
- ✔ Implemented authentication, authorization, and security best practices across the entire application stack
- ✔ Wrote comprehensive unit, integration, and end-to-end tests to ensure application correctness and reliability
- ✔ Automated deployment workflows and set up CI/CD pipelines for streamlined development and release cycles
- ✔ Monitored application performance, diagnosed issues, and executed optimizations for speed and scalability
- ✔ Stayed current with emerging technologies and industry best practices, proactively applying improvements to existing systems

RESEARCHER/UI/UX DESIGNER

Payvenue

2014 - 2015 (1 year)

- ✔ Conducted user research to understand target group needs.
- ✔ Designed and implemented customized user experiences for digital platforms.
- ✔ Delivered high-quality solutions through flow diagrams, graphic designs, storyboards, and site maps.
- ✔ Guided the application of UX research and testing to assess user behavior.
- ✔ Analyzed industry trends to maintain a competitive edge.
- ✔ Performed tests on UI elements, including CTAs, layouts, target links, landing pages, and banners.
- ✔ Predicted user behavior and ensured designs met both product specifications and user psychology

Education

Riphah International University | Pakistan

Master of Science in Software Engineering
CGPA: 3.85/4
Feb 2023 - Aug 2025

Thesis Title:
Augmenting the Software Engineering Lifecycle: A Systematic Mapping Study of Artificial Intelligence Advancements

Southwestern University | Philippines Campus

Bachelor of Science in Computer Science
CGPA: 3.7/4
Mar 2012 - Mar 2016

Thesis Title:
Web and Mobile Service Access via Wireless Technology

Duke University | USA

Large Language Model Operations (LLMOps) Specialization
2024

University of Michigan | USA

Generative AI Specialization
2024

Specializations

Advanced Machine Learning on Google Cloud Specialization - Google
TVOIM90MMOK6

Responsible AI for Developers Specialization - Google
PENQJN4JNREI

Business Intelligence Specialization - Google
ZE66KJB3LTAW

Project Management Specialization - Google
LS3YZQYMFCQG

AWS Cloud Solutions Architect Specialization - Amazon Web Services
9KHKWBRX7ML4

DevOps, Cloud, and Agile Foundations Specialization - IBM
I2YBMBDR8Q8O

Generative AI for Software Developers Specialization - IBM
WM2R86DPKSRH

IBM IT Project Manager Specialization - IBM
KQYL6SSB67NW

IBM IT Scrum Master Specialization - IBM
EKF6G9EJGZJA

IBM z/OS Mainframe Practitioner Specialization - IBM
T6THG5G4RGKJ

IBM z/OS Mainframe Practitioner Specialization - IBM
T6THG5G4RGKJ
